Emmanuel's Campus experience

“It was quite a memorable time! I am fortunate to have had this seven months’ experience. Nothing has prepared me for a residential training than this campus life. The campus is beautiful, calm, vibrant and the workers are so good. The atmosphere is very conducive for learning. The bustling campus life made me not to feel as I was away from home. The eco-friendly and recreational manner of the campus: filler slab roofing, the vellayani lake which always provides cool breeze to the structure and the opportunity to go inside to swim, Eco San toilets, anti-ant water channel, floating solar system, fish ponds, gardens, beautiful trees giving shade, the gym, and volley ball field and much more, makes the environment really unique”
